TITLE INDEX

A

Abnormal oral habits in the children of war veterans
S. Yassaei / M. Rafieian / R. Ghafari, no. 3, pp 189-192.

A case of an unerupted maxillary central incisor for indirect trauma localized horizontally on the anterior nasal spine
P. Cozza / M. Mucedero / F. Ballanti / L. De Toffol, no. 3, pp 201-203.

Aggressive periodontitis of the primary dentition associated with idiopathic immune deficiency: case report and treatment considerations
Enrique Bimstein / Michael McIlwain / Joseph Katz / Greg Jerrell /Robert. Primosch, no. 1, pp 27-32.

Alveolar bone loss in the primary dentition: state of the art
Viviane Santos da Silva Pierro / Ivete Pomarico Ribeiro de Souza, no. 2, pp 139-142.

Ameloblastic fibro-odontoma: a case report
Kittipong Dhanuthai / Kusak Kongin, no. 1, pp 75-78.

An alternative aesthetic restoration for extensive coronal destruction in primary molars: indirect restorative technique with composite resin
Rita Tereza Serra Rabêlo / Angela Scarparo Caldo-Teixeira / Regina Maria Puppin-Rontani, no. 4, pp 277.

An *in vitro* evaluation of microleakage in class I preparations using 5th, 6th and 7th generation composite bonding agents
Theodosis N. Kallenos / Emad Al-Badawi / G.E. White, no. 4, pp 323.

A vacuum-formed splint for luxated tooth with a repositioning on the model
Norio Horie / T. Shimoyama / Y. Nama / D. Nasu / T. Kaneko, no. 2, pp 123-126.

B

Bilateral protrusion of the buccal fat pad into the mouth of an infant: report of a case
Bianca Marques Santiago / Licínia Maria Damasceno / Laura Guimarães Primo, no. 2, pp 181-184.

Bond strength and interfacial morphology of two adhesive systems to deciduous dentin – *in vitro* study
Luciano Casagrande / Vinícius De Hipólito / Mário Fernando De Góes / Fernando Borba de Araujo, no. 4, pp 317.

C

Caries risk in children: determined by levels of mutans streptococci and Lactobaccilus
Luis Alejandro Aguilera Galaviz / Gloria Premoli / Anajulia Gonzalez / Rafael Aguilar Rodriguez, no. 4, pp 329.

Clinical comparison of pain perception rates between computerized local anesthesia and conventional syringe in pediatric patients
Alma Luz San Martin-Lopez / Luis David Garrigos-Esparza / Gabriela Torre-Delgadillo / Antonio Gordillo-Moscoso / Juan Francisco Hernandez-Sierra / Amaury de Jesus Pozos-Guillen, no. 3, pp 239-243.

Clinical evaluation of three different materials used as pit and fissure sealant: 24-month results
Vanessa Pardi / Antonio Carlos Pereira /Gláucia Maria Bovi Ambrosano / Marcelo de Castro Meneghim, no. 2, pp 133-138.

Correlation between signs of temporomandibular (TMD) and cervical spine (CSD) disorders in asthmatic children
Thaís Cristina Chaves / Débora Bevilaqua Grossi /Anamaria Siriani de Oliveira / Fabiana Bertolli / Amanda Holtz . Dirceu Costa, no. 4, pp 287.

D

Delivery trauma and malocclusion
R.Cattaneo / A. Monaco / O. Streni / V.Serafini / M.Giannoni, no. 3, pp 185-188.

Dental abnormalities of a long-term survivor of a childhood haematological malignancy: Literature review and report of a case
R.S. Raja Zarina / N.N. Nik-Hussein, no. 2, pp 167-174.

Dental management of isolated growth hormone deficiency: a case report
Nurcan Buduneli / Ali Riza Alpoz / Umit Candan / Levent Kardesler / Enver Yetkiner, no. 3, pp 263-266.

E

Effects of eugenol and non-eugenol endodontic fillers on short post retention in primary anterior teeth: an *in vitro* study
Fabiana B. Teixeira Alves / Ricardo de Sousa Vieira, no. 3, pp 211-214.

Effects of plaque disclosing agents on esthetic restorative materials used in pediatric dentistry
Débora Maki Hino / Fausto Medeiros Mendes / José Luiz Guimarães de Figueiredo / Katya Luce Moura Naves Gomide / José Carlos Pettorossi Imparato, no. 2, pp 143-146.

Effect of psychological management techniques on specific item score change during the management of dental fear in children
Morenike Oluwatoyin Folayan / Adesegun Fatusi, no. 4, pp 335.

Electromyographic activity of perioral muscle in breastfed and non-breastfed children
Suzane Rodrigues Jacinto-Gonçalves / Maria Beatriz Duarte Gavião / Fausto Berzin / Anamaria Siriani de Oliveira Tatiana Adamov Semeguini, no. 1, pp 57-62.

Enamel opacities removal using two different acids: an *in vivo* comparison

Ana Cristina Barreto Bezerra / Soraya Coelho Leal / Simone Auxiliadora Moraes Otero / Danuze Batista Lamas Gravina / Vanessa Resende Nogueira Cruvinel / Orlando Ayrton de Toledo, no. 2, pp 147-150.

Endodontic management of an impacted premolar
Virginia Karapanou, no. 4, pp 293.

Evaluation of an oral health promotion program using different indicators
Daniella Della Valle / Roberto Braga de Carvalho Vianna / Luís Eduardo Lavigne Paranhos Quintanilha / Fernanda Volpe de Abreu, no. 1, pp 87-90.

Evaluation of fissure sealant applied to topical fluoride treated teeth
Azza A. El-Housseiny / Aly A. Sharaf, no. 3, pp 215-219.

Evaluation of the midpalatal suture during rapid palatal expansion in children: a CT study
Omar Gabriel da Silva Filho / Tulio Silva Lara / Araci Malagodi de Almeida / Helena Cristina da Silva, no. 3, pp. 231-238.

Eruption sequestrum: x-ray microanalysis and microscopic findings
Kenshi Maki / Toshihiro Ansai / Ikuko Nishida / Min Zhang / Yukimi Kojima / Tadamichi Takehara / Mitsutaka Kimura, no. 3, pp 245-247.

F

Facial and perioral primary impetigo: a clinical study
Alexandros Kolokotronis / Stergios Doumas / Maria Lambroudi / Stella Lysitsa / Apostolos Epivatianos / Demetrios Antoniades, no. 4, pp 341.

Fetal intermediate rhabdomyoma of the lip: case report
José Martín Toranzo Fernández / Marco Antonio Metlich Medlich / Luis Horacio Rojas López / César Federico Gutiérrez Loredo / Lizzete Claudia Ortiz Luque, no. 2, pp 179-180.

Freeman-Sheldon syndrome: dental and orthodontic implications
T. Roberts / L. Stephen / T. Naidoo / K. Fieggen / P. Beighton, no. 3, pp 267-271.

G

Gingival fibrous hamartoma associated with natal teeth
Luciana Butini Oliveira / Tereza Keiko Tamay / Marcia Turolla Wanderley / Célia Regina Martins Delgado Rodrigues / Carlos Augusto Galvão Barboza / Suzana Orsini Machado de Souza, no. 3, pp 249-252.

Gummy smile: clinical parameters useful for diagnosis and therapeutical approach
Annalisa Monaco / Oriana Streni / Maria Chiara Marci / Giuseppe Marzo / Roberto Gatto / Mario Giannoni, no. 1, pp 19-25.

I

Interceptive management of eruption disturbances: case report
Paola Cozza / Alessandra Marino / Giuseppina Lagana', no. 1, pp 1-4.

***In vitro* study on the occlusal wear of different restorative materials on primary teeth**
P. Villalta / C.R.M.D. Rodrigues, no. 3, pp 221-224.

L

Long term radiographic study of bilateral second premolars with immature root treated by apexogenesis and apexification
Reishi Seo / Kenshi Maki / Akiko Hidaka / Manabu Higuchi / Mitsutka Kimura, no. 4, pp 313.

Lower mesiodens: report of an unusual case
Marilia Alencar / Danilo Duarte / Patricia Cury / Marcelo Bönecker, no. 4, pp 353.

M

Managing morphologically atypical impacted teeth orthodontically
Puneet Batra / Ritu Duggal / Hari Parkash, no. 2, pp 105-112.

Maxillary incisor palatal erosion: no correlation with dietary variables?
R.G. Chadwick / H.L. Mitchell / S.L. Manton / S. Ward / S. Ogston / R. Brown, no. 2, pp 157-166.

N

Nasotracheal intubation: an unusual cause of palatal perforation in an insulin dependent diabetes mellitus patient
Rahul Bhowate / Alok Dubey, no. 1, pp 79-82.

Natal maxillary primary molars: case report
Marlei Seccani Galassi / Lourdes Santos-Pinto / Lizete Toledo Oliveira Ramalho, no. 1, pp 41-44.

O

Oral defensiveness: children with a dysfunction of sensory regulation
Geela Spira / Ari Kupietzky, no. 2, pp 119-122.

Oral granular cell tumors: an analysis of 10 new pediatric and adolescent cases and a review of the literature
Robert B. Brannon / Payal M. Anand, no. 1, pp 69-74.

Oral manifestations of juvenile hyaline fibromatosis – a case report
Manal I. Al-Malik / Ziad A. Rehbini / Ali A.Eltayeb, no. 4, pp 347.

Oral soft tissue lesions in Greek children and adolescents: a retrospective analysis over a 32-year period
Alexandra Sklavounou-Andrikopoulou / Evangelia Piperi / Vassilis Papanikolaou / Ion Karakoulakis, no. 2, pp 175-178.

Orthopedic and orthodontic effects of Twin-block appliance
Ashok Kumar Jena / Ritu Duggal / Hari Parkash, no.3, pp 225-230.

Orthopedic approach in the treatment of a skeletal class II division 1 malocclusion with an anterior open bite
N. Al-Sulaiti / G.E. White, no. 3, pp 205-210.

Orthodontic assisted tooth eruption in a dentigerous cyst: a case report
Ashok Kumar Jena / Ritu Duggal / Ajoy Roychoudhury / Hari Parkash, no. 1, pp 33-36.

P

Panoramic radiographs: determination of mandibular steepness
Elham S.J. Abu Alhaija, no. 2, pp 165-174.

Papillary endothelial hyperplasia: case discussion with supportive histochemistry and immunohistochemistry
A.R. Raghu / S. Tandon / N.N. Rao N.N. / R. Singh / V.K. Rekha, no. 3, pp 253-257.

Paradental cyst: case report and review of the literature
Maria da Graça Naclério-Homem / Maria Cristina Zindel Deboni / Wilma Alexandre Simões / Andréia Aparecida Traina / Verónica Chin, no. 1, pp 83-86.

Polyethylene ribbon fibers: a new alternative for restoring badly destroyed primary incisors
Gema Island / George White, no. 2, pp 151-156.

Premature loss of primary teeth associated with congenital syphilis: a case report
Andréa Gonçalves Antonio / Alice Kelly / Lucianne Cople Maia, no. 3, pp 273-276.

Prevalence of bruxism in children receiving treatment for attention deficit hyperactivity disorder: a pilot study
Ghadah A. Malki / Khalid H. Zawawi / Marcello Melis / Christopher V. Hughes, no. 1, pp 63-68.

R

Refining occlusion with muscle balance to enhance long-term orthodontic stability
Derek Mahony, no. 2, pp 93-98.

Regional odontodysplasia: report of a case
Levent Ozer, Serap Cetiner, Ersan Ersoy, no. 1, pp 45-49.

Root resorption in deciduous teeth after applying orthodontic forces
A.P. Fiore Aguilar / A.G. Aquila / A.M. Ubios, no. 4, pp 283.

S

Success of mineral trioxide aggregate in pulpotomized primary molars
Najat Farsi / Najlaa Alamoudi / Khalid Balto / Abdullah Mushayt, no. 4, pp 307.

T

The central giant cell granuloma in childhood: clinical case report
Adriano Mota Loyola / Alexandre Vieira Fernandes / Aparecido Onorio Magalhaes / Marilia Rodrigues Moreira, no. 3, pp 259-262.

The effects of periradicular inflammation and infection on a primary tooth and permanent developing successor
Mabel Mariela Rodriguez Cordeiro / Maria Jose de Carvalho Rocha, no. 3, pp 193-200.

The effectiveness of three oral health indicators in monitoring a Program (OHPP)
Daniella Della Valle Sigmaringa / Roberto Braga de Carvalho Vianna /Luís Eduardo Lavigne Paranhos Quintanilha / Fernanda Volpe de Abreu, no. 4, pp 363.

The relationship between the number of erupted primary teeth and the child´s height and weight: a cross-sectional study
Ana Estela Haddad / Maria Salete Nahás Pires Correa, no. 4, pp 357.

The use of overdentures in children with cleft lip and palate: a report of two cases
Zahra Tejani / Ei Chuen Kok / Carol Mason / Brigitte Griffiths, no. 4, pp 299.

Tooth loss and subluxation in the primary dentition: a twelve-year follow-up case report
Maria Salete Nahas Pires Correa / Luciana Faria Sanglard Peixoto / Cristina Giovanetti Del Conde Zardetto / Fernanda Nahas Pires Correa / Celia Regina Martins Delgado Rodrigues, no. 2, pp 127-132.

TMJ internal derangement treatment in the growing patient: effect of functional appliance therapy on condyle and fossa relocation
Patrizia Defabianis, no. 1, pp 11-18.

Tooth loss and subluxation in the primary dentition: a twelve-year follow-up case report
Maria Salete Nahas Pires Correa / Luciana Faria Sanglard Peixoto / Cristina Giovanetti Del Conde Zardetto / Fernanda Nahas Pires Correa / Celia Regina Martins Delgado Rodrigues, no. 2, pp 127-132.

Treatment options for the occlusal surface of permanent first molars
Cristiane Duque / Renata Cristiane da Silva / Lourdes dos Santos-Pinto, no. 1, pp 5-10.

Treatment strategy for patients with ectodermal dysplasia: a case report
Jack W. Martin / Nicholas Tselios / Mark S. Chambers, no. 2, pp 113-118.

U

Ultrasonographic evaluation of effectiveness of circumoral muscle exercises in adenotonsillectomized children
T.V. Anupam kumar / Sobha Kuriakose, no. 1, pp 49-56.

Unusual case of multiple natal teeth
Maristela Barbosa Portela / Licínia Damasceno / Laura Guimarães Primo, no. 1, pp 37-40.

Use of orthopedic finger distractor for facial asymmetry correction
Ajoy Roychoudhury /Puneet Batra, no. 2, pp 99-104.
